

令和7年度九州学生春季テニス選手権大会 予選  
男子ダブルス

The figure is a phylogenetic tree diagram illustrating the evolutionary relationships between individuals from various Japanese universities. The tree is rooted at the bottom and branches upwards, with nodes labeled with red numbers representing statistical support values. The nodes are grouped into clusters labeled 'a' through 'f' on the right side. The x-axis at the bottom represents sequence position, with labels like '10-6', '10-7', and '10-8' visible. The y-axis on the left lists the names and universities of the individuals being compared.
